Neuropsychology Timeline of Events

Step 1	•
Neuropsych Referral/Screen Completed	Either the client (yourself or parent/guardian) or referring provider will complete the Neuropsych Referral or Intake Questionnaire. Once received, staff will reach out. Patient/parent compiles relevant documents such as previous testing, treatment reports (Speech/Language, OT, PT), work/ school reports including IEP, hospitalization reports.
Step 2	•
Portal Set Up/Inition Paperwork	Patient Portal will be set up and intake paperwork will be sent. Client will complete the paperwork and send over any requested documentation/records. Admin will schedule a diagnostic interview once paperwork is completed. Patient/parent to complete Background History and provide relevant documents at least a few days prior to intake date.
Step 3	•
Diagnostic Interview	Prior to meeting, our neuropsychologist will conduct record review, background review, and consult w/therapist. You will meet virtually with the neuropsychologist for 1-2 hours. If the client is a child, only parent/guardians need to be present.
Step 4	Step 4
Testing	Referral
Our admin will schedule furt on the recommendations fro neuropsychologist / client pr will be in-person	om the or not beneficial, you will be given a referral to
