

EMPOWERED PARENTING FOR CHILDREN WITH ADHD

Online Classes with Coaching Sessions

Are you raising a child with ADHD? You're not alone! Parenting an ADHD child comes with unique challenges—but also incredible opportunities to nurture their potential and build a thriving family dynamic.

Who Should Attend:

Parents, caregivers, and guardians of children diagnosed with ADHD—or those who suspect their child might have ADHD.

Why Join?

Gain practical tools you can use right away & learn from professionals who specialize in ADHD. Research shows parental changes are critical for children with ADHD to be successful in learning executive function and emotional regulation tools. Even if your child is in individual therapy/school based plans, you will see significant improvements with skill changes you make at home.

Virtual Class Videos - \$400

This includes access to our educational videos (10+ hours total), workbook, and information sheets. * Videos will continue to be available for 6 months. *

Class + Drop-In Sessions- \$600

Includes Virtual Class Videos (see above), plus 4 drop in Q&A sessions with Laura (must register ahead of time).

Cannot be billed to insurance
